ASBESTOS MANAGEMENT PLAN ANNUAL NOTICE OF AVAILABILITY

To Staff, Parents/Guardians, and Students:

This notice serves to fulfill annual notification requirements in accordance with Section 763.93 of the *Asbestos Emergency Response Act* (AHERA). AHERA requires that all school buildings be visually inspected by accredited inspectors to identify all asbestos-containing building materials (ACBM) that may be present in the school environment. As required under AHERA, Granite Hill School must maintain an Asbestos Management Plan (AMP) and keep the AMP on file at the school, and the School Business Office. The AMP is available for review during school hours, Monday through Friday.

Granite Hill School completed its initial assessment in 2009 and the high school building **did not** contain any asbestos containing materials (ACM). Since then, the middle school was built in 2019 and construction did not include any Asbestos Containing Building Materials (ACBM).

Periodic surveillance of Granite Hill School continues to be performed every six months by a designated person in the maintenance department to assess the setting for any Asbestos Containing Materials. Six-month Assessment Results are maintained and are also available for review in the AMP.

For additional information, please contact the Executive Director, Danielle Paranto at 603-863-0697 or principal@granitehillsschool.org

Sincerely,
Danielle Paranto, Executive Director of Granite Hill School.
